SHALFOON

# COMPONEER™

## Direct Composite Veneer

Innovative and amazingly easy restoration of anterior teeth

*"Componeer is the next frontier in providing minimally-invasive modern dentistry. Featuring a virtually-flawless nanohybrid composite surface, an ultra-high quality product is now available that enables ease of technique, efficiency of placement, predictability in repair and price point that will not only add another tool to the dentist's arsenal, but also widen the circle of cosmetic dental eligibility for many patients."*

Dr. Clarence Tam, HBSc, DDS  
Cosmetic and General Dentistry  
Chairperson of New Zealand  
Academy of Cosmetic Dentistry
